

# Durcon Promotes A Brighter 2008!

Durcon Incorporated has a long history of partnering with casework manufacturers, designers and lab users to deliver new products and services to improve safety, functionality and appearance. We have now answered your requests for a brighter shade of white epoxy resin work surface material with a new addition to our color palette - Alpine White.

## Durcon's 2007 Standard Colors Include:

Black Onyx		Gray	
<b>NEW!</b> Alpine White		Graphite	
Forest Green		Tan	
Steel Blue			

Orders for Durcon's new standard color line (detailed above) will begin February 1, 2008, at which time all non-standard and custom epoxy resin colors (including our current shade of white) will become custom items and priced accordingly. If you have an order for our current standard White, be sure to issue a P.O. with your requirements before the January, 31 2008 deadline.

Custom colors based on your color swatch are also available. Custom color feasibility and cost will be determined by the size of the installation.

Durcon Epoxy Resin Colors available from our Taylor, Texas, manufacturing facility include Black Onyx, Gray, Forest Green, Steel Blue, Graphite, Tan, and all custom colors including Durastone™ products. Epoxy resin colors available from our Canton, Michigan, factory include Black Onyx, Gray and Alpine White.

2" X 2" color samples are available. Forward all sample requests to [sales@durcon.com](mailto:sales@durcon.com) and be sure to include your full contact information and quantity desired. For further information or to request pricing for specific projects, please contact our customer support team.

*Disclaimer: All colors printed here are close approximations of Durcon Inc.'s actual epoxy resin work surface colors using the Pantone® color matching system. Please use this spec sheet as a guide only as these colors can fade over time. Epoxy resin samples are available from Durcon. Please e-mail requests to [sales@durcon.com](mailto:sales@durcon.com)*
